LIGHT COLOUR & LUMEN
LICHTFARBE & LUMEN
COULEUR LUMINEUX & LUMEN

The colours of the LED are represented as pictogrammes (see below), their luminous flux directly beneath. The luminous flux is quoted in lumen and describes the amount of light generated by the LED. The higher the value, the brighter is the lamp. Lumens are LED boards and are the light measurement value in bulbs.

Die Farben der LED werden als Piktogramm (siehe unten) dargestellt, deren Lichtstrom direkt darunter. Der Lichtstrom wird in Lumen gemessen und gibt die erzeugte Lichtmenge der LED an. Je höher der Wert, desto heller das Produkt. Lichtstromangaben (Lumen) sind Platinen- bzw. Leuchtmittelwerte.

Les couleurs de LED ont représentés sous forme de pictogrammes, leur flux lumineux directement en dessous. L'unité de flux lumineux est le lumen et il mesure la quantité de lumière générée par les LED. Plus la valeur est élevée, plus la lampe est lumineuse. Les lumens sont l'unité de mesure de l'intensité lumineuse des ampoules et des panneaux led integrés.

PROTECTION CLASS
SCHUTZKLASSE
CLASSE DE PROTECTION

The protection class indicates to what extent the lamp is protected against electric shock. All lamps in this catalogue are at least protected with the protection class 1 - a higher class is specified in the information box of the respective lamp.

Die Schutzklasse gibt an, inwiefern ein Produkt gegen einen elektrischen Schlag gesichert ist. Alle Leuchten in diesem Katalog sind mit mindestens Schutzklasse 1 gesichert, bei höheren Klassen wird das Symbol im Infokasten der Leuchte angegeben.

La classe de protection indique, dans quelle mesure la lampe est protégé contre les chocs électriques. Tous les lampes dans ce catalogue sont protegées au moins avec la classe 1 - une classe plus élevée est indiquée dans l'information de la lampe.

protection class 1: protective earthing
Schutzklasse 1: Schutzerdung
classe de protection 1: prise de terre

protection class 2: protective insulation
Schutzklasse 2: Schutzisolierung
classe de protection 2: double isolation ou renforcée

protection class 3: protective low voltage
Schutzklasse 3: Schutzkleinspannung
classe de protection 3: très basse tension de sécurité

PROTECTION RATING
SCHUTZGRAD
INDICE DE PROTECTION

The protection rating ensures the operational safety of luminaires. The first number specifies the extent of the protection against the ingress of foreign bodies; the second number identifies the humidity protection grade. All luminaires in this catalogue are at least protected with the rating IP20 – a higher rating is specified in the information box of the luminaire.

Der Schutzgrad gewährleistet die Betriebssicherheit von Leuchten. Die erste Ziffer des IP Grades beschreibt den Schutzumfang gegen das Eindringen von Fremdkörpern, die zweite Ziffer infomiert über den Grad des Feuchtigkeitsschutzes. Alle Leuchten in diesem Katalog sind mit mindestens Schutzgrad IP20 gesichert, bei höheren Graden wird das Symbol im Infokasten der Leuchte angegeben.

L'indice de protection assure la sécurité opérationnelle des luminaires. Le premier chiffre indique à quel point la protection est efficace contre l'insertion de corps étrangers; le second chiffre indique quant à lui le degré de protection par rapport à l'humidité. Tous les luminaires dans ce catalogue sont protegés au moins avec l'indice IP20 – un indice plus élevé est indiqué dans l'information d'article.
